Message from the Team

Dear Partners and Sponsors,

*It is with great excitement and gratitude we welcome you to the very first **Ophthalmology24 Bootcamp!** An event that was born out of a shared passion to bring hands-on learning back to the center of ophthalmic education.*

For years, we have seen how early-career ophthalmologists struggle to gain the practical experience they need to grow confidently as surgeons. Our vision is simple but powerful, to create a space where skills are learned through touch, teamwork, and mentorship, not just slides and lectures.

What began as an idea is now becoming reality thanks to the unwavering support of our industry partners. You are the enablers of progress and the bridge between technology, innovation, and the next generation of eye surgeons. Your trust, collaboration, and presence at the Ophthalmology24 Bootcamp makes it possible to inspire and equip hundreds of young ophthalmologists with the skills that will define their surgical careers.

As this is our first large-scale practical training event, every contribution truly makes a difference. Your partnership not only helps us build the physical space (booths, microscopes, simulators, and instruments) but also the spirit of excellence, learning, and community that defines Ophthalmology24.

Together, we are not just organizing an event, we are transforming ophthalmic education.

Thank you for supporting us,
Atanas Bogoev MD & Maria Bogoeva

Event Overview

Training

1

Practical Day

60

Program Participants

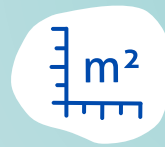

6

Event Concept

How it works?

6 groups of up to 10 ophthalmologists rotating between different lab zones and training sectors every hour.

GROUPS: Each group includes max **10 participants**.

PRACTICE TIME: A total of **6 hours of training** for each attendee, plus **3 hours of social session** and networking.

LAB ZONES: Separate sections, covering different subspecialties. Lab zones can be **company branded** by our partners and sponsors.

WORKSTATIONS: 10 workstations per lab zone.

Training Area

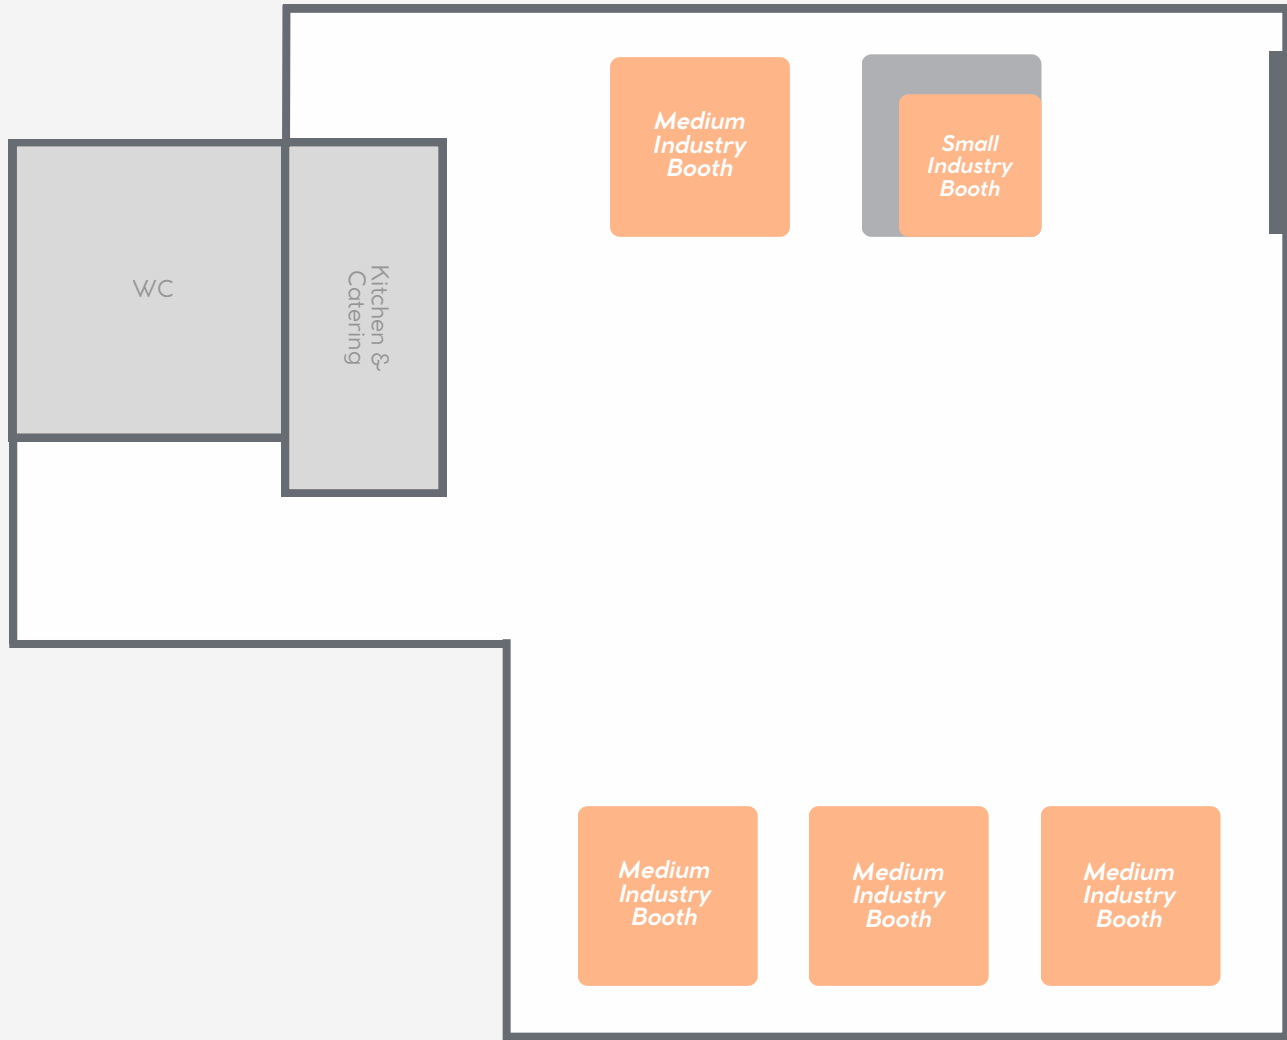

Example Training Area Layout

The layout is subject to change.

The final layout will be announced 60 days before the event.

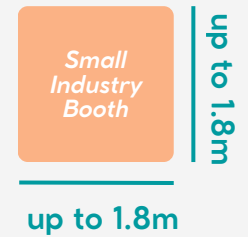

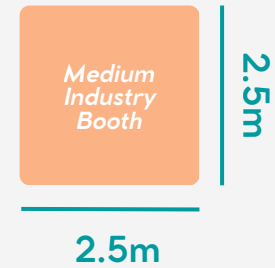

Networking Area

to the training area

Industry Booth Size

We offer small booth space in the **networking area**. Booth sizes can be modified accordingly upon request and if needed, for the purpose of the event.
